FYI.

Wyoming did incorporate the changes you brought up to me.in thier MOU. All three states now say <7.

This version was approved by WY commission yesterday. It is being circulated today for signature.

Our conf call was cancelled today as we didn't have a quorum (No NPS, FS, BLM). Think fires have got folks tied up. Postponed to August 22.

Recalibration is still an issue. Attached is their latest version? I'm confused about this one. It looks like they took some things, edited out others -even their own edits (like the 1,2,3 parentheticals). According to Brian, they only took out items 19 & 20 because they thought they didn't belong there. I don't think that issue is a point that they are standing on so we should be able to get those back in. The rest is all still up in the air as we didn't spend anytime talking about the recalibration itself. JB

Jodi,

Attached is a copy of the final approved three state MOA. This version is being circulated for final signature in Wyoming right now. I will send you a PDF of the signed version once we have it finalized.

Brian
