I finished reviewing/editing Issue 2 and 3; I inserted comments where I had questions. I think it might be valuable to have an exhaustive list of the times we reference population objectives, even if it's too long to include in this document. Let me know if you need help with that!

I am going to move on to condensing Issue 1 as best I can.

Please feel free to start editing the options. I'm working on Issue 1 first this morning and then will return and insert example text for issue 2.
