

Idaho's Annual Grizzly Bear Management Costs (February 2016)

Task	Idaho	TOTAL
Annual GIS layer updates ⁵	0	
GIS run for Habitat Effectiveness calculation (CEM) ⁵	0	
GIS run for secure habitat/subunit ⁵ ; TMARD >1 mi/sq mi/subunit ⁵ ; OMARD > 2 mi/sq mi/subunit ⁵	0	
Monitor developed sites and livestock grazing	0	
Monitor hunter numbers	1000	
Cutthroat trout spawners (Kokanee – Idaho)	1000	
Spring carcass surveys	0	
Whitebark cone transects	0	
Moth presence	0	
Private land status	2000	
Monitoring unduplicated females w/cubs	14000	see note
Mortality	1000	
Distribution of family groups	6500	see note
Maintaining 25 adult females w/radios	32000	see note
Human/bear conflict mgt.	32000	see note
Outreach and education	27300	
Monitor genetic variation²	0	
Miscellaneous	0	
Administration (New Column)	9000	
Total per agency per year	125800	
TOTAL COST PER YEAR	125800	
Total new cost per year		

\$50,000 of Conflict Management, Maintaining Adult Females with Radios, and monitoring females with cubs comes from USFWS funding

Approximately \$10,000 of the Monitoring Females with Cubs and Distribution of Family Groups comes from Section 6 Funding

² This cost will be covered through USFWS monitoring of possible changes in genetic variation in all lower 48 grizzly populations.
