Subject: the other bears

Hi Dan,

Thanks again for taking the time to meet with us about polar bears last week. I thought it was an extremely productive get together. I also wanted to circle back to you about our conversation about grizzly bears.

I've talked to our team and I think we can be in a position to get you a list of policy deliverables we would ideally like to see associated with any proposed delisting of grizzly bears in Yellowstone or the Northern Continental Divide ecosystems. That might be a useful starting place for any future discussions. Our goal is to get something to you no later than the last week in February.

Thanks for bringing this up and I look forward to speaking about it further.

Andrew
