Mr. Goldman,

Sheila Basey is Mr. Bean's scheduler. She can be reached at 202-208-4416 or the email address above. Dan Ashe is out of the office on 11/29, however, I can check the availability of one of his Deputy Directors or our Assistant Director for Endangered Species and get back to you with a response early tomorrow morning since they are all already gone for the day.

We have asked that Dan Ashe, Director of Fish and Wildlife Service and/or Michael Bean, Counselor for Fish, Wildlife and Parks meet with you on our behalf. I have copied Roslyn and Thomas to this email who will be more than happy to help schedule a meeting. If you require anything else please feel free to contact me.

We will be attending the Endangered Species Coalition roundtable discussion with your agency and department staff on Thursday, November 29, from 1-3pm. I believe you are also planning to attend, is that correct?

We wanted to run a couple ideas by you, pertaining to the upcoming delisting of the grizzly bear in the Yellowstone region. We are hoping to avoid a protracted political battle like the one we all experienced over the northern Rockies gray wolf, and were hoping we could chat with you briefly to offer some ideas toward that end.
