Loren,
I wanted to give you an update on the interactive map. They had some issues with their systems recently but are working on the boundary issue and will add the food storage order layer to the map.
Jennifer

Jennifer et al:

comments on the "final CS draft"

*Exhibit A (interactive map)--I still have problems with it as the DMA boundary disappears when you focus in to see actual drainages/land /roads etc

*pg 15 & 109: membership of the YGCC indicates "biological resources division" as a member--does that mean the entire staff or does it mean for one member voting

*pg 32, 35, 58 (maybe more): same sentence has a different font than rest

of document

*pg 54 & 55: the chart is duplicated partially on pg 55 and 54

*pg 97: food storage orders:: should we add those areas to the Exhibit
A-interactive map

*pg 149: USF&WS "recovery plan supplement " changed from 2016 to 2017??

*append F has been deleted (as I remember we agreed to)

*word search: didn't find any "recalibration" language or "nuisance
bear"(all changed to conflict

great job on the CS!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
