Hi Ellen,

I'm responding on behalf of Claudia Regan. It appears there is a signature line for the USGS on the Conservation Strategy, likely because USGS did sign the 2007 Conservation Strategy. I should have caught this earlier but both Claudia and I agree that the USGS should *not be* a signatory to the Conservation Strategy as it is a policy document. I have copied Jennifer Fortin in case a new signature page needs to be drafted up.

Claudia will likely not be at the meeting because of a last-minute change in her schedule. I will represent USGS on her behalf, while still serving as the IGBC science advisor.

See you next week!

Frank

Ellen. Can you get this final CLEAN YES CS document out to everyone for the meeting? We were hoping to have principles either sign this at the meeting or have their actings bring signature page with them to meeting. Thank you. JB
