Thanks Lisa! I have incorporated your language, with a few minor tweaks, and the new figure into the CS.

Hi Jennifer,

I apologize for getting this out so late, but attached is the final section in Chapter 3 pertaining to habitat connectivity. After accepting all tracked changes you should be able to copy and paste it directly into the Strategy, replacing the existing section. Dan and I thought that we should include the Parks in the discussion of food storage, so I updated the figure accordingly.

p.s. - Scott, I'm sorry we weren't able to connect before submitting this - but we needed to get this final write-up to Jennifer for her Sept. 20 deadline. Meanwhile, I made a connection w/ the NCDE based on information in their draft conservation strategy.
