Frank,
I knew there was one other thing from our Monday call but couldn't recall it when we talked yesterday. It is the duration of the Strategy language. Here it is again so you don't have to dig through emails. I need assistance from you in the justification (with supporting literature if possible) of 2 generation intervals as the appropriate monitoring duration.
Thanks!
Jennifer

Frank and Mark,
Here is a very brief draft. I found that I need assistance from you in the justification (with supporting literature if possible) of 2 generation intervals as the appropriate monitoring duration.
Thank you!
Jennifer

Frank indicated Monday morning at 9:30 phone call. I'll be sitting in.

Mark

Frank,

Do you ,and possibly Mark also, have time early next week to have a phone call to discuss our assignment from today's YES call about the duration of the Conservation Strategy? I did a little research this afternoon and plan on doing more tomorrow.

Thanks!

Jennifer
