I apologize for not being clearer. I don't need the actual surveys but the details behind the collection of them to include in the Strategy. We need to include information for the state and the park, which Kerry is providing, about how long the data has been collected and how it is collected. Please let me know if you have any other questions.

Thanks!

Are you looking for surveys in the park or where we survey? I can get you all our Wyo info fairly easily but can't speak for park surveys or park ungulate data especially bison. Let me know.

Hi Dan,

I'm trying to fill the details of the ungulate survey section that we used to replace the winter-killed carcass surveys. Do you know during which year Wyoming began doing surveys of elk and bison in the park? Also, can you provide a brief synopsis on how the surveys are done for inclusion in the Strategy?

Thank you!

Jennifer
