Lisa,
Please track changes in the Sept. 1 version as that is the most recent version that was circulated. We do not plan on circulating a clean version until the final.
Thanks,
Jennifer

Jennifer,
Just wondering – what’s the best way to get tracked changes to you? Should we wait for you to circulate a clean version of the latest and then add new tracked changes? Or should we just add to the tracked changes of the most current version we have? (my most recent version is dated Sept 1.)
