If Dan's info is the latest on this subject, I don't think we need a call. Do we believe that this is what will be presented at next week's meeting?

If there's more to the story, I'm available for a short check in if it works for others.

Subject: Call this afternoon

We were considering a conference call with Mary, Scott, Jennifer, Lisa, and me this afternoon. One reason for the call was to discuss standards and definitions associated with developed sites (CS Chapter 3). This is a topic of interest because the Chapter 3 subcommittee was struggling with it.

The subcommittee just finished a conference call dealing with this. In short- it was proposed that language would be added to the CS stating that we would “work on” the topic (language and database) over the next couple years. Agreement on accepting that product would depend upon consensus among the 3 land management agencies and the FWS.

We also have a plan to address the immediate “youth camp” issue.

That’s the simple version. Do we still need a conference call? If so, it looks like we are all available at 2 PM. But I don’t have the ability to arrange the call.

In the meantime, I have to work on the new CS language with Lisa and take care of medical needs for my mom. So, Scott, could you make sure I get the news on what is decided? Thanks!
