Attachments: [Subcommittee Proposal.doc](#)

As per the phone conversation today, we will continue to work on the “subcommittee proposal” with the hope of having a pretty clean proposal by the Sept. 8th meeting. The primary edit to the document is the addition of an approval process for what gets developed before the end of 2018. The intent of this process is that each federal land management agency must approve the final product, and the USFWS. I added some draft language to that effect at the end of the proposal, highlighted in yellow.

With that, our charge is to edit the attached proposal and timeline to make sure it meets everyone’s needs and interests. Please have any suggested edits to me ideally by Tuesday, and we can continue to tweak from there up to Thursday, Sept. 8 when the YES meets.

Thank you,

Ken McDonald

Habitat sub-group, here is the language for the Developed Site Standard that I developed which would give the NPS the flexibility it needs to address significantly increasing visitation while still protecting bear habitat.

Attached is some language regarding the 1998 baseline for developed site standards that Kerry developed. Once you are OK with the language, Kerry can send it to GRTE, USFS, and

USFWS. Thanks.

To: P White <pj_white@nps.gov>

PJ,

Here is a quick first stab at it. I think it would fit our needs.
