This morning would be great. I'm trying to get all of the edits in as soon as possible.

Please keep me updated on potential edits to the "sensitive species" language. I met with Scott Jackson and Alan Campbell on Tuesday and we edited the wilderness, wilderness study area, and roadless area wording for the rule.

I have a few edits for the CS but not the ones needed from the FS – we are working on those at WO level and they are not complete yet.

Am wondering if they are helpful this morning or not. These are minor edits that can come later if need be, at you may have caught them already.
