Hi Dan,

See attached. Those are the references to moths in the 2015 LMP. Obviously, there is more in the accompanying EIS.

We are working with Jennifer Fortin, FWS, to respond to public review comments to the Conservation Strategy. One comment concerns moth site management. Can you provide language from the SNF Plan on this topic? The comment claims that we are inattentive to the topic/management concern – no provision or recognition of the issue. Language in the SNF

reference moth sites will help address this. What is an easy way to provide this? – cut and paste from the Plan?- link to the FP? Thanks!

Dan Tyers, PhD
