All,

I wanted to give you an update on our annual report. USGS has been getting a lot of calls, emails, tweets, FB messages, you name it, about IGBST "delaying" the report (and some suggesting it is for political reasons associated with the delisting). Below is an example for your morning entertainment.

The report is late because we've had a lot on our plate lately and had some transitions in personnel, etc. Either way, we are in the final stages of layout and I'm hoping that next week we can post it on the IGBST website.

We have posted the Annual Report 2015 summary, which is available here and is attached:
