Those changes look good. Please let me know once you've had a chance to discuss these proposed changes with

Dan Wank. It is important that he understands that these changes probably constitute substantive changes that will require the Conservation Strategy to go back out for public comment, which will delay the completion of the Conservation Strategy by 2-3 months. I know certain people will not easily agree to any delay in a final rule. Please let me know if you have any questions or would like me to participate in a call with Dan.
