I used the most recent version of Chapter 3 and added in the edits rather than continuing to work on the other version. My newest changes should have the initials JF and were teal, at least on my computer. I moved the paragraph we were just discussing to the overall discussion of habitat standards inside the PCA. The only other edit is the addition of the point to the application rules. I have a phone call at 2 that hopefully won't last more than 30 minutes and will be available after that.

Thanks!

Thanks Jennifer. I have a workshop until noon today - we hopefully can touch base on your wording later this afternoon.

I'll work on some revisions to the wording in Chapter 3 this morning in an attempt to encapsulate our conference call and then email it to you for edits. Thanks!
