[Developed Site Standard new language Kerry Gunther.docx](#)

I added some language for our discussion that Chris proposed to address the need for additional parking, toilets, etc. without increasing overnight use. I am also sending you the proposed language from Kerry Gunther in case you haven't seen it.

Subject: developed sites language

Jennifer, Dan,

Attached is a brief paragraph that I prepared to address the need to modify our methods in tracking developed sites. I also attached the paragraph that Ken McDonald drafted. My concern is that Ken's language is rather specific (i.e., allowing an increase of 5% in developed sites) and constitutes a major change to the current standard for developed sites. We need to strike some kind of balance. See attached.
