---

All,

Below are two additional options provided by the USFWS regarding Appendix C and how future population estimator changes would be addressed.

Brian

Brian. The Service has reviewed the YES SC edits to Appendix C of the Conservation Strategy which speak specifically to the recalibration issue for delisting of YES GB. We refer to these edits as Alternative A. Because the Service has concerns regarding the need for additional language to clearly describe how recalibration would occur (particularly in order to address comments raised by the NPS, Peer reviewers and the public) we have drafted 2 additional alternatives intended to meet that need as well as that of the States. These are attached and we refer to them as Alternative B and C. Please share with the group. It may be short notice to talk about them today but we wanted to be responsive to the issue that was discussed at the YES meeting. Thank you. JB
