Thanks Dave!
I know the formatting is a mess!

> These changes are only meant to address the Chapter 3 food monitoring themes brought up during YES and assigned to the habitat sub-group. Once I have consensus from the Study Team on suggested edits the plan is to bring these suggested changes back to the sub-group for approval. If there is not agreement at the sub-group level then it will be elevated to the steering committee. We are trying to make edits within the system that YES set up.

> Hi Frank and Mark,

>

> I'm attaching the draft Conservation Strategy with revisions I made in light of the Study Team meeting on the 12th. The majority of the revisions are in Chapter 3, however, given our discussion on hunter numbers I did insert a brief background on it in Chapter 4. I would appreciate any edits you may suggest and if you would pass this along to the rest of the Study Team with a plan to get any additional edits back by end of the day on Thursday. Please note that I plan on revisiting the executive summary and introduction (Chapter 1) once all edits are finalized so there are currently no changes. Please let me know if you have any questions.
