Suggestions for changes to Chapter 6:

\*2nd para, 2nd sentence: After the end of the first sentence add a new sentence: "The three local government representatives will remain the same as on the YES committee."

\*2nd para, first red-line addition sentence after super-majority vote add: "of the members present" (to avoid an inability to conduct business if many of the YES committee are not present)

Subject: Nesvik recommendations to Ch. 6 regarding YGCC

All,

Here is my first shot at some updating and edits to Chapter 6 regarding the conduct of the YGCC. Also included is my recommended edit on page 44 to include the USFS, BLM and NPS in annual meetings of the three states to discuss allocation of discretionary mortality.

My other commitment was to update language related to "stability" and "approaching carrying capacity". This language occurs multiple times throughout the strategy and, if you are all agreeable, I will wait to make those changes until after the YES committee decides whether they agree with the concept.

Brian
