I seem to be having email problems so please let me know if you receive this. Below is the proposed language for exceptions for dispersed sites after our conversation earlier.

Hi Lisa,

Here is the proposed wording for allowed changes to dispersed sites:

Modifications to dispersed sites that reduce resource damage, detrimental environmental impacts, and/or the potential for grizzly bear conflicts are allowed (e.g., installing a vaulted toilet to avoid damage to water resources or installing bear-resistant storage structures to reduce conflict).

Thanks!
