First, on the conference call with the habitat subgroup to revise the conservation strategy you mentioned a powerpoint presentation that highlighted the issues from the Forest Service. If you would please email that to me I think it'd help me give me some more background.

If the afternoon of July 11th or possibly the morning of July 13th would work please let me know. It might be a good idea for you, Lisa, and I to sit down anyway and do some editing.
