Great job Steve-sure glad you "volunteered" for the job!

edits for consideration:

*first para, second page, second line add "tribal" after state

*page 3, management authorities: "authorities will employ one or more of the four strategies". It appears that there are only 2 strategies listed, removal or relocation?? suggestion: just eliminate words "of the four"

*last line, same header: add "tribal" after state

*page 6, within the PCA: I am still concerned that we are including JDRP to the national parks management of conflict bears. Should we get Brian's approval that the state will not want that ability? JDRP is mentioned 4 times in that header
