Lisa,

I'm sorry that these figure changes have become a bit confusing. It looks like you made good sense of my requests! I don't think we need #3 though.

Thanks!

Jennifer, it's no problem to make these maps – so please ask away!

However, I am a bit confused exactly what you are asking for. If I understand correctly you asked for the following:

1. Fig 3 without Suitable habitat and without GB Occupancy, but with Federal land boundaries.
2. Same as #1 but without Federal land boundaries.
3. Same as #1 but with suitable habitat.
4. Same as #2 but with suitable habitat

All of these would have less towns and perhaps more readable highway symbols. None of them would have Occupancy. Is this correct?

Lisa

Just a heads up, to make things even more confusing we may need a version of the same map with suitable habitat for the proposed rule. No rush on these until after you've finished the draft chapter 3.

Thanks!

Hi Lisa,

Why don't you wait on revisions to Figure 3 of the GYE boundaries as there is still some discussion on what will be discussed. We may or may not need the occupancy or the suitable habitat.

Thanks,
