Hi Lisa,

We have decided that for Fig 3 we would like get rid of the layers USFWS suitable grizzly bear habitat and GB_Occupancy_1990_2010. It would also be nice to simplify the towns as we previously discussed to improved readability. I don't want to make a lot of extra work but can we do two versions, with and without federal lands boundaries? Please let me know if you have any questions.

Thanks!

Hi Lisa,

Why don't you wait on revisions to Figure 3 of the GYE boundaries as there is still some discussion on what will be discussed. We may or may not need the occupancy or the suitable habitat.

Thanks,
