Subject: Grizzly mortalities Yell and Teton
Date: Thursday, September 24, 2015 10:24:33 AM

Chris,

Suspect you are aware of the discussions about NPS and the proposed delisting of grizzlies in the Yellowstone region? (If not feel free to give me a call). As part of the that discussion our Director is going to meet with your Director soon and has requested we provide him with a list of management bear mortalities in both Teton and Yellowstone for the past 10 years. We have a request into the Parks but I thought you might also have access to that information and if so could you send it along? I am not sure you have a definition of "management bears" but we were thinking those intentionally killed by the Park and those killed by accident (illegals or vehicles)? If you all have developed a definition that would also be helpful.

Thanks, see you in Seattle in Nov

Rick
