I'll touch base with you early next week if I haven't heard back from you by then. Hope you have good flights and things go well with the black bear.

J

I know exactly what you are talking about and I will follow up this week (hopefully). I have bear flights scheduled Thur/Fri and a problem black bear so if I forget please remind me. I too am learning a lot so hopefully we can help each other out!

I apologize for being vague as I'm still learning how and when things are done for different agencies. I would like to check and see if the compendium has been updated with language about the conservation strategy for grizzly bears. There's no rush on this so tomorrow would be great.

Thank you!

Jennifer

Not sure what you mean by "check status". We have a compendium that we update every year. I assume you are interested in items that relate to grizzly bears so please let me know what you need and I will track it down for you.

I am not in the office right now so I won't be able to look at anything until tomorrow.

Kate

Thank you Kate! I'm still learning my way around things here. One item on my too do list, left to me by Rebecca, is to check the status of the Superintendent's Compendium. Do you have any information on this or know who I should talk to?

Cheers,
Jennifer

Hi Jennifer,

Steve Cain's position was just filled - but the candidate doesn't EOD until August. In the interim, please use me as your contact for routine business. When I get more details I will let you know.

Thanks,
Kate

Hi Kate,

I was hired to replace Rebecca Shoemaker with the Grizzly Bear Recovery Program and she gave me your name as a good point of contact within GTNP. I am trying to contact the new senior wildlife biologist who replaced Steve Cain but haven't had any luck finding the information. I would greatly appreciate your help if you have their name and email address.

Thank you,
Jennifer
