Dear Deb,

I am addressing the Wyoming Game and Fish Commissioners at the meeting in Caspar on April 22, 2015. The schedule is attached. The materials enclosed with my request to speak and to inform the Commissioners included a cover letter from Dr. David Mattson with enclosures including his declaration and graphs on Grizzly Bear population and elk decline. The cover letter indicates it is cc'd to Mr Dave Vela and Mr. Michael Bean. This email is to forward those materials for the review of Mr. Dave Vela, GTNP Superintendent and Mr. Michael Bean of the Department of Interior as they so choose. Thank you for your courtesy and your time once again in this matter. With Kindest Regards, Deidre J. Bainbridge
