---

Dear Dan,

We appreciate the opportunity to present our scientific findings regarding the GYE grizzly bear population this week and hope you and your staff found it useful for your deliberations.

Attached is a copy of the IGBST presentation. I made a few minor changes and added notes to many of the slides for additional reference, including literature cited. I will also send a copy to the state directors and their staff.

Please do not hesitate to call on us if you need any additional information or for participation in future meetings.

Best regards,

Frank
