Chris,

The revised figure is attached. Let me know if you want any other changes.

Mark,

We are back and finalizing the responses to comments received on the revisions to the demographic criteria. We have 2 small issues where we need information from you and these are attached.

1. We need the sustainable mortality levels for the 3 age/sex cohorts for 2012. We are pretty sure you showed these in a slide you presented to YES.
2. We need this figure modified slightly as noted. Should we ask Lisa to do this or you?

We realize you are up to you axles in the synthesis, so sorry to ask this of you. We need this any time before the IGBST meeting on November 5.

Thanks in advance,
Chris
