Subject: Fwd: Agenda for September 8th YES Meeting on the Conservation Strategy
Date: Friday, September 16, 2016 1:04:09 PM
Attachments: [Appendix C - ALT B edits by FWS.docx](#)
[Appendix C - ALT D from SC 8.13.16 version 2.docx](#)

As per phone call from Seth re the "targets" in Appendix C - No agreement was reached by the YES committee or the steering committee on Appendix C but the following 2 alternatives are the leading contenders.

Alt B has support by NPS, USFS and us. To be clear though I doubt the FS or NPS is aware of items 19 & 20 or understands their significance, no one has spent much time talking about them (overlooked I think). The issue is more about the recalibration language.

Alt D is the chosen alternative by States, counties etc.

Hope this helps. JB

Jen feel free to weigh in if I've missed anything.
