I'm forwarding a short memo from the environmental groups following up on our discussion in July regarding delisting of the grizzly bear. Sorry for the delay in forwarding - it came in when I was on vacation. Let me know what you think of their proposals. I'll schedule a call for next week if folks are around.

Bob,

As we discussed last month, attached is a further refinement of our discussion about a potential delisting of grizzly bears in the GYE. We have tried to capture the areas of agreement reached during our last meeting, and, whenever possible, to respond to your concerns and narrow the differences between our two positions.

Thanks again for your constructive help with these talks.

We look forward to hearing from you,

-- Andrew
