Hi Chris,

Unfortunately, I'll need to cancel our interview--it looks like we're going in another direction for this magazine department, so I no longer need the scoop on grizzlies. Thanks for your availability, and I hope we talk bears at some point in the future.

Hello Chris,

I'm working on a short piece about Yellowstone region grizzlies and their potential delisting from the ESA this year for Yellowstone Journal magazine. Do you have time this week for an interview? I'd like to hear the USFWS argument for delisting the bears as well as your take on the challenges that would face such a move.

My schedule this week is flexible, so just let me know what times work for you.

Thanks,
