Great. You are the only one on the phone so I can just call you.

Mike,

This is the gentleman who was at the Cody meeting and who came up and introduced himself to me after the meeting. I just had a good talk with him on the phone. He said he will invite other Cheyenne tribal leaders to this consultation meeting.

I also am setting up another consultation with the Confederated Salish and Kootenai Tribes about Yellowstone delisting. They have never been against delisting or been approached to do so but would like a chance to learn more about it.

Pat Hnilcka is helping set up consultations with the 2 Wind River reservation business councils. I am also in contact with the Shoshone Bannock Tribes in Idaho, and if a consultation is suggested there, I will involve the Idaho FWS office folks.

Chris

James,

It was good talking to you on the phone today. We are set for a meeting on July 16 at the Capitol Building in Lame Deer at 9 AM. The purpose of the meeting is to consult with you and other Tribal leaders about the status of grizzly bears. We are interested consulting with you and in your thoughts on this issue. We can answer any questions you may have about the grizzly bear recovery process and the biological status of grizzly bears.

Please let me know if any thing comes up and we have to reschedule this meeting. I look forward to seeing you.

Best regards,

Chris
