Matt, since nobody in the RO was in the meeting last week I suggest Chris take a first crack and we can refine as necessary. I agree that we should respond back with the principles of agreement if not the actual points of agreement.

This letter was sent before our meeting last week and the meeting between the Director's yesterday (in which we agreed on the general approach to move forward). We should talk about whether this needs a response. Might want to memorialize the agreement we reached back writing. We can draft in the RO.

FYI at this point, I guess. That said, its been controlled and we will need a response to this one pretty soon (probably want to talk with Mike about what we want to say).
