This is fine in substance but we need to prepare a formal press plan for releasing this information that we have reached a decision to move forward with a proposal to delist. Up to now, our official position has been that the director has yet to make a decision. We need to do better than make this change know in bits and pieces in letters to organizations. This letter needs to be delayed until this press plan and release is in place.

We are working on a more formalized release of the fact that a decision to propose delisting has been reached. Until then, let's hold on to this letter.

Here is a draft revised version. Any concerns? Once Mike and Chris bless, I'll move back into surname.

Thanks,
Seth

That is what I was afraid of. I spoke with Kris and she is going to get with Matt and Seth after the briefing to resolve.

Thanks Chris.

This letter is now in conflict with the letter sent to the 3 state directors a few days ago as it says "at this time there has been no decision...".
