Yep, the delisting one is still with the RD. I sent Jessica preliminary copies of the documents this morning to keep things moving, in hopes that we'll have the final signature soon.

I don't have a docket number for that one - I thought that was something HQ provided? If not, how do we go about getting the docket number?

Adding Sarah Backsen, as she is shepharding the delisting one through surname. Everything has been a little slow around here lately, but I think the package is still with our RD. Should be signed and submitted soon.

Jessica,

Yes, one was to uplist and the other was to delist. I am copying the RO folks who might have the docent numbers.

Hi Chris,

Im working on putting the FR doc together for the Nov batched findings. I thought someone said of the two petitions for grizzly, one was to uplist and one was to delist, is this correct? I just want to make sure I adjust the language accordingly.

Also, do you have a docket number for each of these?

Thanks!
