Maria,

See below for your answers.

That is correct. As my note stated, you need to prepare a reply to the Gov Panteah letter.

***If so, should we not include someone from EA - like Ivy Allen our Tribal liaison?*** *From my experience, after the letter has gone through our ES folks, yes it is then routed to EA for their surname. I do not know when Ivy is brought in to the process as far as creating the letters, as I'm not involved in that. I am always sent the letter after it has been written and I am given the routing and note to reviews etc., again, after everyone in EA surnames off it gets routed to EA for their surname then it goes to RD office for their signature.*

***Is there a new DTS for this response?*** Not that I am aware of. No other DTS assignment has come through to me at this point.

***The attached DTS control slip is for our letter to the states and this request for a response is much different. The DTS control slip that is attached is the one that came through the DTS system and it shows the same DTS number attached to it which is (FWSPM00052) that is the DTS number which has been assigned to this. I apologize, I am confused as to what you are saying that it is a letter to the states on the control slip? See below for the screen shot of the Control Slip. These are attached from HQ so I can always contact CCU at HQ and ask them for clarification.***

**Comments:**

*I am assuming the other attachments are intended to be background, for the new response - but I am confused as to why the letter to the editor from the Denver Post regarding the death of the bear cubs in Evergreen, CO is included in this.* I am assuming it is background as well, as you are just supposed to respond to the Panteah letter. I

forward all the attachments that are included with the assignment. As you know, these assignments usually come from HQ so I have no idea why it's there. I could contact HQ CCU and ask them why it was attached if you would like?

I hope this answers your questions. If not, let me know and I can go up the chain and ask for more clarification from the RD's office or HQ?

Thanks Jill.

Just to be clear we are only responding to the letter from the Governor of the Zuni Tribe's Pueblo of Zuni? If so, should we not include someone from EA - like Ivy Allen our Tribal liaison? The incoming is requesting consultation pursuant to EO 13175, which goes beyond normal Tribal Consultation pursuant to section 106 of the NHPA. Also, is there a new DTS assignment for this response? The attached DTS control slip is for our letter to the states and this request for a response is much different. I am assuming the other attachments are intended to be background, for the new response - but I am confused as to why the letter to the editor from the Denver Post regarding the death of the bear cubs in Evergreen, CO is included in this.

Chris, pending Jill's response, could you please look at the attachment FWSPM00052 and put together a draft response that we can share with EA.

Thank you.
