Subject: Grizzly Bear Delisting Campaign: please help us garner support for the proposed delisting

Hello AWCP:

Bear Trust International is beginning a social media campaign today to help garner support for the USFWS proposed delisting of the grizzly bear population in the Greater Yellowstone Ecosystem. To this aim, **we have graphed the real-world data related to the 3 demographic recovery criteria** and provided them on our website so the public can see for themselves that this grizzly bear population met delisting criteria in 2008. Based on the scientific data, grizzly bears in the GYE are ready for delisting.

We are posting the message below on our facebook page today. Please feel free to share this jpg with your social media gurus, if you wish. I'm providing the photo below as an attachment to this email for ease of use. Thanks so much for considering my request. If I can answer any questions please do not hesitate to contact me anytime.

Warmest regards, Melissa
