Hi, Jennifer.

Kevin Frey passed along your contact info. I'm just looking for a sentence or so to include in an article I'm writing for the fall addition of a local magazine regarding where we are in the process federally.

I don't need to quote you with that – or I can if you're willing. Again, if not one or two simple bullets to help explain to the public what's happening and what's next in the process would be great.

In the article I'll probably also explain what our F&W Commission approved recently in relation to the potential hunting of grizzlies, but will more so focus on the success story that is their recovery.

Thanks!

Cheers,

**Andrea Jones**
