Here is my (hopefully) final review. Seth had some good points that I left in. A couple of Important points:

1. We need to avoid all conflicts of interest. There are plenty of reviewers out there who have no conflicts of interest. Opening the door to reviewers with conflicts of interest will contaminate the reviews.
2. I am ok with trying to find 5 reviewers but this may be a challenge in the short time allowed. My suggestion would be to say 3-5 to allow a range of reviewers. No less than 3 and no more than 5.

Let's move this along as time is getting short.

Chris
