This sounds good. I would recommend we try to move our response next week, if possible, as we should get the response out before the May 10th closing the comment period. Justin, hoping you can push this through next week, once approved.

Thanks,

I just spoke to Chris, We will suck this response into the RO and take one thing off his plate for the week. Not sure how Director wants to respond so since I will be with Matt the next couple of days we will see.

There were 2 requests for comment extension: HSUS (sent to us) and Earthjustice on behalf of 14 groups (sent to the public comment site). Both are attached along with our draft response that would be signed by me by Friday or someone in the RO. My recommendation is that we should extend the comment period.
