

Dead or Injured Protected Wildlife Report

Leech Lake Reservation
Division of Resources Management
115, 5th Street, Suite E
Cass Lake, MN 56633
Phone 218-335-7421, Fax 218-335-7430

Species: Canada Lynx

ID Tag No: 2581

Sex: Reported to be male, frozen so it is difficult to tell

Date Found: Jan. 20, 2012

Location: The Lynx was reported to have been caught in a snare about one mile WSW of Cass Lake, MN. (T145N-R31W- Sec. 17)

Reported by: The Lynx was brought to the DRM by (b) (6) who reported to have caught it while trapping for other predators. He address is (b) (6) (b) (6). Phone (b) (6)

Recovered by: Delivered to DRM by (b) (6) who surrendered it to LLDRM CO Jamie Mitchell.

Condition when found: Dead in snare.

Cause of injury or death: Caught in snare.

Extent of injury: Suffocated

Comments: The lynx is in the DRM freezer awaiting review from FWS. DRM would like to get it back for display in our interpretive center after FWS is done with it.
