Morning:

Per protocol, passing along info to you all regarding a lynx take. No action needed by other DNR folks here, just FYI.

This one slipped through our reporting protocol timeline a bit and I just learned about it late last week. So we'll do a reminder to CO's and Wildlife staff to be sure they relay any such take more quickly to myself or Tom Provost.

11/25/18

Sex unknown

Foothold trap (#2) set by natural cubby on ground, baited with deer scraps and skunky lure – set for marten

Lynx released by trapper and CO (b) (6), (b) (7)(C) – no visible injuries to lynx (or to trapper/CO during release ☺)

No law violations

47.671615; 91.839895

Unfortunately, no DNA collected (will send out a reminder on this too)

ICR# 18027536

Tom (or Tamara?) – can you alert (b) (6), (b) (7)(C)

Any questions, let me know.
