(b) (6), (b) (7)(C) - Please coordinate with Tam Smith in our office as this develops.

I'd also recommend coordinating with our regional tribal liaison - Tim Petronski, at some point, but we won't do that until getting a green light from you (LE).

Thanks, Phil

(b) (6),
(b) (7)(C),

I talked to Steve Mortenson about this lynx this morning. Please give (b) (6), (b) (7)(C) a call on this ASAP. I haven't read the attached report yet but I understand the Band member was snaring bobcats and caught this lynx near Cass lake. He turned in the carcass to the Leech Lake tribal DNR. Please make sure there was no intent to catch a lynx and find out if there was any negligence involved.

Please ensure Phil has the following:

- Date taken
- Precise location
- Description of the incident
- Size of cable and loop used
- Photos (if taken)
- Contact information for the trapper

We may need a genetic sample once your investigation is complete.

Thanks,
