Yes, please send it to my attention, shipping address below. A heads up on date shipped/delivery date would be greatly appreciated.

Thanks!

Tim

Good morning Tam and Tim,

I have requested the lynx be returned to Ely. Should I send it to the attention of Tim? The pathologist needs to release the carcass and he will not be in the office until tomorrow. I will give you an update as soon as I know if/when it has been shipped.

All best,
Jennifer

Hi Jennifer,

The Forest Service received their Letter of Authorization (attached) from our Regional Grants Coordinator that allows them to take possession of the lynx specimen. Tim Catton, Superior National Forest, will likely contact you soon regarding the details on obtaining the lynx from your lab. Please let me know if there is anything you need from me.

Thanks and have a great weekend,
Tam

NWHC case 23814_Diagnostic
Subject Update

Attached, please find the most recent diagnostic findings for your submission to the National Wildlife Health Center. The Pathologist assigned to this case is out of the office for two weeks due to (b) (6). He will hopefully be finalizing the case when he returns. I haven't had a chance to discuss these latest lab results with him so I will need to get his interpretation on the ChE findings.

If you have any questions regarding this case, please do not hesitate to contact me.

All best,
Jennifer
