---

Hi Jennifer,

I would like to know what I need to do to assist in getting the lynx carcass to Ely. If you could give me a call at your convenience to discuss that would be great, (218) 365-7637. I am usually in the office daily, best time between 9:00 and 4:00.

Thanks!

*Tim*

Hi Jennifer,

The Forest Service received their Letter of Authorization (attached) from our Regional Grants Coordinator that allows them to take possession of the lynx specimen. Tim Catton, Superior National Forest, will likely contact you soon regarding the details on obtaining the lynx from your lab. Please let me know if there is anything you need from me.

Thanks and have a great weekend,  
Tam

Subject NWHC case 23814\_Diagnostic Update

Attached, please find the most recent diagnostic findings for your submission to the National Wildlife Health Center. The Pathologist assigned to this case is out of the office for two weeks due <sup>(b) (6)</sup> [REDACTED]. He will hopefully be finalizing the case when he returns. I haven't had a chance to discuss these latest lab results with him so I will need to get his interpretation on the ChE findings.

If you have any questions regarding this case, please do not hesitate to contact me.

All best,  
Jennifer
