All,

fyi - See the attached preliminary necropsy report from Jennifer Bradsby (USGS National Wildlife Health Center) regarding the lynx that died during catchpole release in St. Louis County this fall.

Sorry for the delay, I wanted to have the chance to talk directly to Jennifer and Ron Kramer (LE) before sending this out to those of you who have asked to be kept in the loop regarding this incident.

Jennifer thinks that the injuries were self inflicted. She has a few additional tests, the results of which will be included in the final report.

Thanks,
Tam
